

WASHINGTON, DC – House Oversight and Government Reform Committee Ranking Member Darrell Issa issued the following statement on the passage of H.R. 3962:

“This 2,000 page, 1.3 trillion dollar bill will cost Americans more jobs, add to an exploding Federal deficit, make it more lucrative for trial lawyers to sue doctors, and take away health care choice. At the same time, it won’t control the growing cost of health care. The American people are opposed to this flawed bill and I expect they will hold those who ignored their concerns accountable.”
